Graphicriver 19 Template System 10955645.rar - Google Play or if anyone has it, please let me know! 19 Template System Á Comment Á Q: Can I add a sleep in the middle of the code to allow time for video to play? I have a code where I use the video stream to play, so the user is able to get audio and video. How can I add some kind of code that "sleeps" for 3 seconds when the video starts? here is the code: `VideoView vv = (VideoView) findViewById(R.id.vv); MediaController mc = new MediaController(this); mc.setMediaPlayer(vv); mc.setAnchorView(this.findViewById(R.id.activity_frame)); mc.setEnabled(false); vv.setMediaController(mc); vv.setVideoURI(Uri.parse(Build.VERSION.SDK_INT >= 21 ? Uri.parse(data) : "android.resource://com.startegikategi/raw/video").toString()); vv.requestFocus(); vv.start();` I tried to add the `vv.setVideoURI(U`
